

## 3D Modeler

ReadySet is a company on a mission to supply extraordinary technology that empowers our customers through accelerated retail innovation and success. We create software solutions through cloud-based web, VR, and emerging technologies. We are passionate about creating cutting-edge Virtual Reality experiences and helping our customers find a better, faster way to design, test, and implement retail solutions.

We are seeking additional 3D Modelers for our Assets Team. If you have 1-year or more (more preferred) "professional" experience modeling in Cinema 4D (C4D) **and** are willing to relocate **or** you already live in the Green Bay area, we want to meet you and see your work. We are growing fast and seeking passionate 3D modelers of **all skill levels** to join our team. If you pride yourself as an independent self-starter who possesses initiative, pride, and strong work ethic, then you will fit right in. You must be resourceful, with an ability to pick up new skills quickly. ReadySet modelers; at any level, are required to provide creative and original solutions to solve our client's needs. As a 3D Modeler for ReadySet you are modeling product, not environments. You must be comfortable in a fast paced and relaxed environment, being able to hold yourself to deadlines and goals. Our modelers work within a Cinema 4D environment and are responsible for conceptualizing, developing, creating, and rendering a full range of low poly 2D & 3D products optimized for game engine delivery. Check us out at [readyssetvr.com](http://readyssetvr.com)

### We are interested in meeting you if:

#### You...

- have experience modeling objects in Cinema 4D (C4D) - Show us your work.
- have talent for Unity/Unreal.
- have knowledge with Python scripting.
- have talent in Low poly (gaming) modeling.
- have a strong interest in VR.
- ask questions to determine direction.
- accept criticism and be able to work positively.
- enjoy working alongside colleagues and external consultants.
- are organized and self-motivated.
- work effectively to tight deadlines.
- Have an eye for detail.

## Responsibilities

*A 3D Modeler, at any level, is expected to perform a variety of duties, including but not limited to:*

- Texture capture and preparation (cropping and retouching images)
- Recreate everyday Consumer Packaged Goods (mainly product packages) in 3D using provided textures.
- Wrangle spreadsheets to compare data and create files to drive Python scripts in C4D.
- Take your ideas and concepts, along with consumer insights, and translating them into finished 3D products.
- Work with internal and client teams to ensure finished products resonate with target audiences.
- Model/create and sketch ideas, both in 3D and 2D (paper).

## Qualifications & Skill Requirements

- Bachelor's Degree in Graphic Design and Media Arts with concentration in 3D Modeling and Animation or related multimedia design discipline.
- Minimum of 1-years' experience/including schoolwork in modeling related role preferred.
- Proficiency in Cinema 4D (minimum of 1-years' experience, more a preferred).
- Functional familiarity with both Excel and Adobe Creative Suite, particularly Photoshop.
- Strong conceptual and communications skills.
- Competency in delivering ideal scale, lighting, and perspective in your 3D work.
- Experience in modeling of environments, scenes, assets, products, and packaging, both existing and conceptual.

### Bonus Points If you...

- Have experience in asset creation for Unity/Unreal.
- Experience and knowledge with Python scripting.
- Have talent in Low poly (gaming) modeling.
